This Presentation includes information from a survey of employers’ recruitment experiences, March 2013, receiving more than 500 responses from employers across Tasmania.
The North West and Northern Tasmania Priority Employment Area (PEA) is made of the entire Mersey-Lyell Labour Force Region (LFR) and part of the Northern LFR. Together, the two LFRs provide a good indicator of what is occurring within the PEA.

- **Burnie is a priority LGA.**

- There are 12 Local Government Areas (LGAs) that make up the PEA:

  **Myersey-Lyell LFR**
  *Burnie*
  Central Coast
  Circular Head
  Devonport
  Kentish
  Latrobe
  Waratah/Wynyard
  West Coast

  **Northern LFR**
  Dorset
  George Town
  Launceston
  West Tamar

**Profile of the NW/N Tasmania PEA**

*Source: ABS, Population Estimates by Age and Sex, Regions of Australia, 2006 and 2011; ABS, Census of Population and Housing, 2011*

- The adult population in the Burnie LGA increased by 5 per cent between 2006 - 2011. Population growth for persons aged 15-24 years was 8 per cent.
- Indigenous populations located in:
  - Circular Head (11 per cent)
  - Burnie (5 per cent)
Rising unemployment
Source: ABS, Labour Force, Australia, Detailed - Electronic Delivery, July 2013 (cat. no. 6291.0.55.001), three-month averages of original data

- There has been a 4.0 percentage point increase in the unemployment rate since the onset of the GFC.
## Regional disparity

Regional disparity – some areas worse off than others

Source: DEEWR, Small Area Labour Markets, June quarter 2013; *ABS, Labour Force – Australia, July 2013 (cat. no. 6202.0), seasonally adjusted estimates

Unemployment rates vary considerably across the PEA.
The labour market participation rate in the NW/N Tasmania PEA has been consistently lower compared with Australia.

Source: ABS, Labour Force, Australia, Detailed - Electronic Delivery, July 2013 (cat. no. 6291.0.55.001), three-month averages of original data
Fewer full-time and lower skilled jobs

Rise in part-time employment
Source: ABS, Labour Force, Australia, Detailed - Electronic Delivery, July 2013 (cat. no. 6291.0.55.001), three-month averages of original data; ABS, Labour Force – Australia, Detailed, Quarterly, May 2013 (cat. no. 6291.0.55.003), four-quarter averages of original data.

*Higher skilled occupations made up of: Managers, Professionals and Technicians and Trades Workers.
*Lower skilled occupations made up of: Community and Personal Service Workers, Clerical and Administrative Workers, Sales Workers, Machinery Operators and Drivers and Labourers.

This table highlights the large decline in full-time employment in the PEA. Suggesting underemployment is likely to be an issue in the region.

This table also shows that there has been a decline in employment in lower skilled occupation, further increasing the challenges to job seekers with lower levels of education.
Employment by industry

Health Care and Social Assistance is the largest employing industry in both Australia and in the PEA.
**Employment growth by industry over five years**

ABS,* Labour Force, Australia, Detailed, Quarterly, May 2013 (cat. no. 6291.0.55.003), four-quarter averages of original data

- Employment in Health Care and Social Assistance grew by 21 per cent (or 3,500 people) across the PEA, in the last five years.
Long-term unemployment

Source: ABS, Labour Force - Australia, Detailed - Electronic Delivery, July 2013 (cat. no. 6291.0.55.001), 12-month averages of original data

- As at July 2013, nearly one in four (23 per cent) unemployed people were long-term unemployed, which was higher than the national average.
- The average duration of unemployment, at 46 weeks, was also higher than the national average (of 37 weeks).
- Across Tasmania, the average duration of unemployment for persons aged 45 and older is 63 weeks.
## High rates of income support

Source: DEEWR, Survey of Employers’ Recruitment Experiences, March 2013 and 2011

**Survey results**

*Source: DEEWR, Survey of Employers’ Recruitment Experiences, March 2013 and 2011*

Employer survey results suggest that overall recruitment conditions in the NW/N Tasmania PEA may have deteriorated since 2011.

- Indicators of recruitment activity have softened since 2011, with fewer employers recruiting and annual vacancies per 100 staff decreasing slightly.
- Employers were less likely to say that recruitment was ‘difficult’ than was the case in 2011.
Most employers sitting tight - change in staff numbers, past 12 months

Source: DEEWR, Survey of Employers’ Recruitment Experiences, March 2013

• 70 per cent of employers either increased staff numbers or kept them the same in the 12 months to March 2013.
Unfilled vacancies by occupation

Source: DEEWR, Survey of Employers’ Recruitment Experiences, March 2013

- 2.9 per cent of employers’ most recent vacancies remained unfilled.
- However, more than 10 per cent of recent vacancies for Technicians and Trades Workers remained unfilled at the time of the survey.
Most applicants don’t get an interview
Averages, per vacancy

- Total applicants: 8.5
- Not interviewed: 6.0
- Got an interview: 2.5
- Unsuitable: 1.1
- Suitable: 1.4

29% of applicants interviewed

Applicants and suitability
Source: DEEWR, Survey of Employers’ Recruitment Experiences, March 2013

This diagram breaks down the number and suitability of applicants in employers’ most recent recruitment round.

- There was an average of 8.5 applicants per vacancy
  - With 6 not interviewed
  - Of the 2.5 average applicants who were interviewed more than half were considered to be suitable for the job.
Basic employability skills

Source: DEEWR, Survey of Employers’ Recruitment Experiences, March 2013

Employers were asked whether there were any skills or personal qualities essential in an applicant. Some 49 per cent of responding employers said that some form of employability skill, such as communication, people skills or motivation, was essential for an applicant to be successful.
**Informal recruitment methods**

*Less competition for job seekers*

<table>
<thead>
<tr>
<th>Method</th>
<th>Percentage</th>
<th>Applicants per vacancy</th>
</tr>
</thead>
<tbody>
<tr>
<td>Formal method</td>
<td>53%</td>
<td>14.8</td>
</tr>
<tr>
<td>Informal Method Only</td>
<td>47%</td>
<td>3.2</td>
</tr>
</tbody>
</table>

*Source: DEEWR, Survey of Employers’ Recruitment Experiences, March 2013*

**Competition for vacancies by method of recruitment**

*Source: DEEWR, Survey of Employers’ Recruitment Experiences, March 2013*

Almost half of employers used informal methods only to fill vacancies in their most recent recruitment round.

Informal methods include using worked of mouth, putting a sign in the window and considering applicants who asked them if they had any job vacancies.
**Occupations difficult to fill**

*Occupations that surveyed employers also said were commonly difficult to fill in 2011.*

**Source:** DEEWR, *Survey of Employers’ Recruitment Experiences, March 2013*
Recruitment expectations
Expected change to staff numbers, next 12 months

Source: DEEWR, Survey of Employers' Recruitment Experiences, March 2013

Subdued recruitment expectations
Source: DEEWR, Survey of Employers’ Recruitment Experiences, March 2013
Employers most concerned about economy
Single greatest concern

Greatest future concern for 12 months following the survey
Source: DEEWR, Survey of Employers’ Recruitment Experiences, March 2013

• Employers in the NW/N Tasmania PEA were most commonly concerned with demand for their products/services or the economy (55 per cent of employers listed this as their greatest concern for the 12 months following the survey).
Conclusion

• Labour market conditions soft across the PEA
  • High unemployment, low labour force participation and decline in full-time jobs
  • Persistently high unemployment in Burnie

• Challenges
  • Low educational attainment levels; youth disengagement; jobless families; long-term unemployment

• Opportunities exist
  • Strongly growing industries (Health Care and Social Assistance) and ageing workforce
  • Broad range of occupations difficult to fill
  • Vacancies still being advertised

• Job seekers need to be job ready
  • Apprenticeships and work experience; education and training; employability skills.

• Collaboration amongst all key stakeholders
